

How ICs are made and what is behind an integrated circuit? Design history of ICs - from “pen & paper” to AI driven development

Tech workshop by Infineon Technologies Romania

WHEN: 10 April, 14:00 - 16:00

WHERE: UTCN, Room S01, 26-28 Baritiu Street, Cluj-Napoca

Discover:

- Basic of Integrated Circuits - how small chips power our big world
- The magic behind integrated capsules
- Miniaturization in IC's - smaller, faster and more innovative
- Dedicated applications that show micrometer transistors

WHY JOIN:

- We'll use 100x zoom on an IC & wafer
- Exclusive insights from industry professionals
- Learn more about Infineon Cluj career path
