

## PLAN OPERAȚIONAL

**FACULTATEA DE ELECTRONICĂ, TELECOMUNICAȚII ȘI TEHNOLOGIA INFORMAȚIEI**  
**PROIECTE MAJORE**  
**OCTOMBRIE 2026 - SEPTEMBRIE 2026**

### Centralizator proiecte

| Nr. | Cod | Denumire proiect                                                                                                                                                                                 |
|-----|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1   | P1  | Actualizarea și corelarea ofertei educaționale cu cerințele de pe piața muncii                                                                                                                   |
| 2   | P2  | Creșterea calității procesului didactic și orientarea către un mediu de predare / învățare centrat pe student                                                                                    |
| 3   | P3  | Dezvoltarea Școlii doctorale din cadrul facultății                                                                                                                                               |
| 4   | P4  | Menținerea acreditărilor ARACIS, pentru toate programele de studii: licență, master, doctorat                                                                                                    |
| 5   | P5  | Creșterea calității și vizibilității rezultatelor cercetării                                                                                                                                     |
| 6   | P6  | Creșterea numărului de contracte de cercetare interne, naționale, internaționale și cu mediul economic                                                                                           |
| 7   | P7  | Asigurarea resursei umane necesare proceselor din facultate                                                                                                                                      |
| 8   | P8  | Administrarea transparentă și echilibrată a resurselor materiale și financiare, asigurarea necesarului de spații, dotări și amenajări pentru procesele didactice, de cercetare și administrative |
| 9   | P9  | Îmbunătățirea rezultatelor profesionale ale studenților                                                                                                                                          |
| 10  | P10 | Promovarea ofertei academice a facultății: licență, master, doctorat, educație continuă, internaționalizarea ofertei de studii și atragerea de studenți străini                                  |

## Prezentare proiecte

| Direcția strategică din PM      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | 1. Procesul educațional și orientarea către cerințele pieței muncii<br>4. Activitatea profesională a studenților |                                                                                |        |   |       |                                                                       |                    |   |       |   |       |   |       |   |       |   |       |   |       |   |       |  |        |   |   |   |   |
| Măsurile din PM                 | <ul style="list-style-type: none"><li>• Analiza și recalibrarea ofertei educaționale, în colaborare cu specialiști din mediul economic, la nivelul planurilor de învățământ și al conținuturilor disciplinelor, astfel încât acestea să fie de actualitate și să răspundă competențelor profesionale cerute pe piața muncii, satisfacând în același timp cerințele ARACIS și RNCIS.</li><li>• Flexibilizarea programelor de studii prin discipline optionale și facultative, adecvate nevoilor actuale de formare ale studenților.</li><li>• Consolidarea și dezvoltarea de parteneriate cu companii de profil din regiune în susținerea studenților, prin încheierea unor protocoale de colaborare, pentru definirea unui cadru de acordare de burse private studenților, respectiv de furnizare de teme pentru lucrările de finalizare a studiilor.</li><li>• Generarea de materiale didactice integrate care să acopere ciclul predare-învățare-evaluare (curs, aplicații, auto-evaluare, evaluare), în format digital, online, utilizând platforma "Campus Virtual UTCN" (proiect UTCN e-learning), cu acces controlat și management individual al activității fiecărui student, valorificând astfel avantajele învățării mixte (blended-learning). Procesul de predare-învățare-evaluare va integra resurse și metode digitale cu cele tradiționale.</li><li>• Creșterea nivelului de interactivitate, atractivitate și eficiența a activităților de tip față în față (F2F) prin utilizarea combinată a mijloacelor clasice cu mijloacele moderne (bazate pe TIC) de predare/învățare, precum și prin extinderea utilizării de metode inductive, cum ar fi: învățare bazată pe investigare/intrebări, învățare bazată pe problematizare, utilizarea de studii de caz, învățarea prin descoperire, exemplificarea aspectelor teoretice</li><li>• Integrarea unor rezultate ale cercetării în procesul didactic (research-informed teaching), în special la cursurile de master, orientând astfel studenții atât înspre o carieră academică cât și înspre o carieră în mediul economic, inclusiv pentru zona de cercetare-dezvoltare.</li><li>• Valorificarea informațiilor colectate de la studenți în urma procesului de evaluare instituțională a calității activității didactice (EADS), în scopul creșterii continue a calității actului didactic prin consolidarea și diseminarea aspectelor pozitive, dar și prin identificarea de soluții pentru remedierea aspectelor negative.</li></ul> |                                                                                                                  |                                                                                |        |   |       |                                                                       |                    |   |       |   |       |   |       |   |       |   |       |   |       |   |       |  |        |   |   |   |   |
