

Dear Partners

Karabük University International Robot Tournament (KBURO 2018) will be organized by Karabük University on 12-13 April 2018. Karabük University, which has become a brand in the field of robotics and has achieved success in many national and international competitions, will host this competition with this background. In our contest, oil wrestling robot category will be its first example in our country and in the world. In addition, the mobile robot that collects Saffron Flower, which grows in our Unesco World Heritage City Safranbolu, will be another original value of this competition. Any project with interesting ideas about robot and robot technologies will also compete in the Free Category. International participants, universities, technical, anatolian and science high schools, and individual participants can apply to the competition. Projects of the free category and those developed by our university students will be displayed in a foyer area during the competition days. We will be honored to see you among us in this event where especially the Free Category projects are encouraged."

Our university will provide transportation, accommodation and transportation in our country. Required information can be found at the Internet address (<http://www.kburobottournament.com>). You can find the contact information below to receive to any questions and information. We will arrange to see you at this event will be very happy.

Best regards

Prof. Dr. Raif BAYIR
